What has worked well for you in 2022?

Members expressed their pleasure at being able to meet in person with their groups. They enjoyed mixing with like-minded people and making new friends to support and challenge them. There was also a focus on the wide range of classes with strong programs offered. The leaders were congratulated for providing a positive, friendly learning environment. Good communication about courses and strong admin support was also highlighted.

What could U3A SP do better?

While many members said they were happy with the way it is currently, the commonest point of interest was the current accommodation and the need to continue lobbying with Council and politicians to improve and expand our facilities.

Other points to be considered:

- More social functions, short courses and day outings.
- Recruitment drives to attract newly retired
- Coordinated communication strategy
- Extend connections with other U3As
- Class sizes and timings

Other comments.

This was generally the space where members expressed their gratitude for 'another year of fabulous work supporting SP seniors community'. There were some more specific comments: more volunteers; good to see the recent cooperation with Mornington U3A; the President to visit the courses and meet the members; pursuing local council re improved space and facilities.
